What is an “event”?

Rockstar Developer

Bossman

Let me know how your
project is going.

Sure.

I just turned on my computer.

Now I just typed my first
line of code!

Let me check my
email real fast...

What's this? An overseas
Prince needs my help with
his bank account!!

Okay... just tell me
when you have something
important to show.

The beta version is done!

Excellent! I'll call the partners.
